## GOVERNMENT BADLY DEFEATED.

Latest Ontario Election Returns give 65 Conservatives and 30 Liberals—Three Constituencies to Hear From.

Ottawa, Jan. 25th.—At 11:15 the returns from the Provincial elections show fifty seven Conservatives, twenty-four Liberals, and seventeen places to hear from; this out of a house of ninety-eight.

The latest reports give 65 Conservatives, 30 Liberals, with 30 Constituencies, Algoma, Port Arthur, Rainy River and Fort William and the Lake of the Woods to hear from.

### Liberals Welcome the Defeat.

Toronto, Jan. 26th.—The result of the Provincial elections gives 70 conservatives to 28 liberals.

Though rather overwhelming in character the defeat is freely welcomed by the best friends of Liberalism who have watched with anything but approval the recent progress of the Ross administration which tended to discredit the party in the very Province where it is most essential to maintain its influence unimpaired. The final burial of the scandals of that regime is regarded with relief, and already steps are being taken towards the reorganization of the

party on lines which will command the respect and confidence of the province. No man has been lost because they realized that the Whites are the best, for dissensions, already appear in the ranks of the conservatives and it is clear that rifts even now show in the lute of party harmony. Whitney is a weak vessel and his friends have not the best of reputation. Foy, Nesbitt, and St. John will do no better for the Province than Stratton and Gibson while they have not half the ability. The disintegration of the conservatives begins with the assumption of office and the time is propitious for a succession to office of the liberal Government purged of the mistakes of the past and devoted to the true principals of Liberalism.

### Prophecy That Failed.

Ottawa, Jan. 24th.—Parliament will get down to business after tomorrow when the Provincial campaign is over. The outlook is that the contest will be pretty close. Those who have been in the right predict that Ross will have a majority of from 8 to 10.

## TWO PROVINCES OR ONE.

The report from Ottawa that the prospects are for the formation of the Territories not only in one but two provinces comes rather as a surprise.

The representations already made by the Northwest Government were in favor of one province, and all the arguments made were based on that idea. Any argument that exists against the formation of one province exists with double force against the formation of two. It is time that the original, and it might be said, the only agitator for provincial autonomy which was instituted by James Neilly of Calgary many years ago was for the distinct and definite purpose, which the word "autonomy" was used to indicate, of dividing Alberta from the rest of the Territories and setting it up as a separate or autonomous province. But this movement was opposed by Premier Haultain at the time, and it finally may be said to have died out with this exception every utterance by or from the Northwest has been against the division of, or cutting off from the Territories as they now stand. The special reasons are not far to seek. A provincial establishment saddled on the revenues according to or produced from the present population of the Territories would be a sufficiently serious burden. But two such establishments loaded on the same population would be little short of an iniquity.

In the three miniature provinces, in Manitoba and in British Columbia we have sufficiently striking example of the results of burdening a small population with the load of a provincial government. No doubt the possible agricultural area of the Territories is sufficiently large to admit ultimately of two or even more provinces with a population and consequent revenue ample to sustain creditably a provincial establishment. But the point is that although we have the Territory we have not yet the population, and if a province is formed with revenues based on the present population we will not either now or in the future have adequate means to carry.

The demand for two provinces if there is such a demand, comes from outside not inside the Territories. It is a favorite idea especially in the smaller provinces that it could not be in their interests to have the North West, with the population and voting power that it must ultimately contain, organized as a single province. This may or may not be correct, but certainly if the demand for the Province arises from a wish to weaken the Territories in the council of the nation, that is another reason why North West people should want only one province.

The only influence within the Territories looking to two provinces are merely local and sectional. A multiplication of provinces means necessarily a multiplication of capitals, and people will shout for two provinces if they may thereby live in a capital who would stand grimly for only one if the capital was to be elsewhere. So too there may be people whose in a multiplication of offices a chance for themselves which with only one set of offices they would not have. But the great bulk of the people—fully ninety-nine hundredths—would be injured directly in pocket by doubling upon them at the present time the burdens of local government.

In the future when the Grand Trunk Pacific and the Canadian

## Superfluous Hair

Removed by the New Principle

## De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. DE MIRACLE is not. It is the only method which is indorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

DE MIRACLE will be mailed to any address, sealed in plain wrapper for \$1. Your money back without question if it fails to do all that is claimed for it.

Our booklet—the most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain, sealed envelope, upon request. Write for it to-day to DE MIRACLE CHEMICAL CO., 23

Ltd.

## TWO PROVINCES OR ONE.

Continued from page two

Northern have been completed across the Territories, when our population has become as nearly a million as it now is near a half a million, will be time enough to consider the generation of the new provinces. When we will have population and consequent revenue adequate to support double provincial responsibilities. And if it would be difficult to divide then the single province created now, no great harm could result from continuing in our present status for a few years more. Wherein have we lost or are we losing now, remaining as we are? How much can we lose—may be bound to lose—by accepting provincial organization before our conditions demand it? The pressure for provincial organization for the Territories is from the outside rather than from the inside. It comes because the provinces recognize that the Territories are more fortunately situated financially than they, and they wish to use the occasion of the grant of provincial organization to the territories as a means of securing the betterment of their own position, and by making two provinces instead of one, provide against a future preponderating influence on the part of the Territories.

## Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft coal, and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates, may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 100 acres. The patent for a mining location shall provide for the payment of

royalty on the sales, not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or bench, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles, or fraction, will be sufficient. Rental, \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease. The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river, and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing position. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee. Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent, is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz, and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for one individual or company having machinery on the land to be prospected, an area of 440 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery as area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

Department of Interior, Ottawa, September, 1902. JAMES A. SMART, Deputy Minister of the Interior.

### Broke for Freedom

Bulletin Special.  
Broke Jan. 24th. In spite of the fact that he was sentenced to a can stable of the H. N. W. M. P. James Fetter, just sentenced to two years in the penitentiary for breaking into the post office at Odis and stealing \$100 worth of stamps, made a successful break for liberty from the east-bound C. P. R. train between Greenwood and Virden. He was on his way from Odis to St. Mary's, and the constables had taken the precaution to handcuff the prisoner to himself. The policeman fell asleep and Fetter obtained the key, unlocked the handcuffs and threw himself off the train.

### MASONIC.

Rev. A. Chisholm, Worshipful Grand Master of the Grand Lodge of Manitoba, A. F. & A. M., arrived on Wednesday evening's train and held a lodge of instruction in the Masonic Hall from 8:30 to ten o'clock. At 10:30 a banquet was tendered Mr. Chisholm in the Alberta hotel by the members of the order in Edmonton. The company numbered nearly 100, and every seat at the three long tables was occupied by Masons and their guests. John W. Morris, Worshipful Master of Jasper Lodge, presided as chairman and T. M. Turnbull J. W. as vice chairman. The spread was all that could be desired. The toast list was as follows: "The King and Craft," with the usual honors.

Song: "The Auld Forty Two" Mr. Jackson Hanby, encore "My Pretty Jane".

"The Grand Lodge of Manitoba" responded to by the guest of the evening, Mr. Chisholm.

"Our Dominion" responded to by F. Oliver M. P.

Song Mr. Jackson Hanby, "The Minstrel Boy."

The City of Edmonton proposed by Rev. Mr. Chisholm and responded to by Mayor K. W. McKenna and ex-Mayor W. Short.

The Junior Warden's toast was responded to by the assembly singing "Auld Lang Syne". The national anthem brought the proceedings to a close shortly after 12 o'clock.

### JUNIORS WON AGAIN.

The Edmonton junior hockey team scored their second victory in Strathcona last night by defeating the juniors of that town by a close score of 3 to 2. This game was fast with the exception of a few off sides and some end to end hitting. Edmonton got the first goal about ten minutes after starting, scored by C. Banford, and soon after Davidson, of Strathcona scored for the home team. There was no further scoring in the first half.

The first goal in the second half was scored by Edmonton, after the prettiest play of the night being an end to end combination play between Chester Banford, and Laurie Grosvenor.

Strathcona was not long in evening up matters and Kent scored a pretty shot from centre.

Gordon Banford scored a game for Edmonton three minutes from time and the game ended 3 to 2.

H. Deaton was referee.

## CITY SALARY LIST.

PRESENTED TO THE COUNCIL

Many Ratepayers present at Tuesday Evening Meeting

That the citizens of Edmonton are experiencing an awakening interest in civic affairs, or that the council for the present year is the most interesting which has held office for some time is apparent from the number of ratepayers who regularly attend the deliberations of the Aldermanic board. Formerly only occasionally did matters of sufficient importance or sensationalism occur to draw a large audience to a regular council meeting but the gatherings of the Aldermen since the New Year have been marked usually by the presence of a fair number of interested auditors and on several occasions the seats provided in the new council chamber have been filled. Such was the case on Tuesday evening. The spectators began to gather about 8 o'clock and as the Aldermen were a few minutes late in taking their seats they were greeted by a full house, the drawing card being apparently the announcement that the council would again tackle the problem of selecting Commissioners for the current year. The main item on the programme however failed to come off as the general business occupied nearly the whole of the evening and discussion of the applications was deferred until this evening when a special meeting will be held. It was intimated that the discussion might be more satisfactorily carried on in committee and the meeting this evening may be resolved into a committee of the whole and the discussion take place behind the closed doors of the committee room.

## CITY WILL INSPECT DAIRIES.

The dairyman of the city seized time by the forelock and petitioned for a license of \$20 per year on all sellers of milk and cream. A similar petition last year was promptly turned down on the ground that it was frequently difficult for citizens to obtain milk when no license fee was charged and to impose a fee would only be to increase this difficulty. The Aldermen took another view of the petition of Tuesday evening and asked the By-law Committee to prepare the necessary legislation to enable them to impose the fee, on the ground that by so doing a rigid inspection could be made of the dairy premises and of the quality of the liquids supplied the consumers.

## MORE INFORMATION WANTED

The report of the Committee on the proposed purchase of the Exhibition grounds brought on a short discussion which developed two conflicting opinions as to the proper method of procedure in such cases. Aldermen Clarke & Picard thought as a by-law had been petitioned for by a large number of the ratepayers it should be prepared without consideration of the opinions of the Aldermen regarding the proposal itself. Alderman Griebach however pointed out that the committee had not reported as to the disposal to be made of the property if purchased and Aldermen Boyle & May held that before sending a proposition to the ratepayers the council should inform themselves thoroughly on the proposed deal and come to some definite conclusion as to its merits. The report was laid on the table to give the Aldermen a week in which to examine the proposal.

## IMPROVEMENTS SUGGESTED.

The fire, market and civic buildings committee presented the following list of recommendations:—

1. That the alarm bell be swung in a frame or steel tower at the rear of the municipal buildings and at a sufficient height that the sound would not be muffled by the surrounding building and that the City Engineer prepare plans and ascertain the cost of the two kinds of towers.
2. That the cells be torn out of the firehall and a stable built in the rear with a loft and storehouse overhead.
3. That prices be ascertained for new hose reels and hose wagons.

Your clothes will last twice as long and look better, too, if washed only with

## Sunlight Soap

It washes coarse things easiest because it is a powerful cleanser, and is best for fine things because it is perfectly pure and will not injure them. Equally good with hard or soft water. No scrubbing, no boiling.

Try Sunlight.

You may have your money back if you are not satisfied.

## WHAT WATER COSTS

## TO PATRONS OF THE SYSTEM.

## Comparative Rates of Edmonton, Calgary, and Other Canadian Cities.

In a recent issue the Calgary Herald gives a list of the annual water rates charged in that city, together with calculations based on those rates of the total cost of water service for houses of various sizes. The information contained in the article is reproduced below together with the Edmonton rates for purposes of general information and comparison.

In Calgary the flat rates charged for residences varies with the number of rooms and the number of occupants.

In Edmonton the rates are calculated on the number of rooms alone regardless of the number of inmates. Calgary users are allowed at the minimum rate one tap, Edmonton users one hot and one cold water tap.

## CALGARY RATES.

The method adopted by the waterworks department to arrive at the rate is to ascertain, first, the number of rooms and the number of occupants and then fix the price by a sliding scale, and price to include the kitchen tap. For each additional convenience a fixed charge is made. For example, the bath-tub costs \$1.50; additional taps \$1 each; water for a cow \$2 for a house including buggy wash; dog \$2.50; including a 500 foot wide lawn; \$3 for each additional 25 foot lot \$1.

The prices for houses of various sizes, with occupants of varying number are as follows, including one tap only. For a 4-room house 2 persons \$10; 3 persons \$11; 4 persons \$12; 5 persons \$13; 6 or 7 persons \$14. The amount to be added to these in each case for a bath tub, basin, closet and lawn tap, is \$6.50 thus two persons in a 4-room house with the above named conveniences, would pay \$16.50; a 4-room house with 6 or 7 persons would cost \$20.50. For a 5-room house the charges are the same up to 7 persons. For 8 or 9 persons the net rate would be \$15, or with the ordinary bath-room attachments and lawn tap, as above specified \$21.50. If you keep a cow the total will be \$23.50. If you have no cow, but keep a horse, the amount is \$24.

## EDMONTON RATES.

The city tariff as it affects dwellings is set forth in the schedule as follows:

Dwellings, four rooms and under with one hot and cold water tap \$4.00  
Each additional tap \$1.00  
Each horse (including carriage wash) \$2.00  
Each cow \$2.00  
On bath tub additional \$1.00  
Each bath tub additional \$1.00  
One wash basin \$1.00  
Each wash basin additional \$1.00  
Closets additional, each \$1.00  
Drain additional, each \$1.00  
Furnace additional, each \$1.00  
Laundry tub additional \$1.00  
Slop sink additional \$1.00  
Boiler for hot water heating (6 mos.) \$2.00 to \$6.00  
Boiler for steam heating (6 mos.) \$1.00 to \$6.00  
Lawn and gardens, 1000 sq ft or less \$1.00  
Lawn and gardens, each 1000 ft additional \$1.00

## HOW IT FIGURES OUT.

According to the Herald the Calgary rates figure out this way:

For a 6 room house, 2 persons \$12; 3 persons, the same; for 5 persons \$13; 6 or 7 persons, \$14; 8 or 9 persons \$15; with both room equipment and lawn tap, \$22.50; with cow \$24.50; without cow but with horse \$25.00.

For a seven room house, same charges as for 6 room as far as 10 persons, or 12 persons, \$19; with bath room and lawn, \$25.50; cow \$27.50; horse, \$28 horse and cow \$30.

For an 8 room house, 2 or 3 persons \$18 net rate; 4 or 5 persons \$19; 6 or 7 persons \$20; 8, \$21; 9, \$22; 10, \$23; 11, \$24; 12, \$25; For 9 rooms, same charges prevail up to 14 persons; 15 persons \$27; For 10 rooms 2, 3, or 4 persons \$14; 5 or 6 persons \$15; 7 or 8 persons \$16; 9, \$17; 10, \$18; 11, \$19; 12, \$20; 13, \$21; 14, \$22.

And so on. This will be seen that a man with, say, a 7 room house and 6 inmates equipped with kitchen tap, bath, basin, closet and lawn tap, pays \$20.50 per annum. Stationary water use would bring the amount up to \$23.50. If he keeps a cow \$25.50; if he keeps a horse but no cow \$27; if he keeps both, \$29. The local rates for similar residences are:

Four roomed house, any number of occupants \$6.00; with kitchen sink \$12 (with bath, room equipment \$20.00; with lawn \$30.00; and water charges for lawn \$5.00; if cow a few \$6.00; if horse is kept \$1.00; if both are kept \$1.00.

The charge for a residence with any number of rooms, provided with the conveniences mentioned, may be readily found by adding to the amount \$1.00 for each additional room. The rates will thus be found:

Five roomed house \$15.00  
Six roomed house \$16.00  
Seven roomed house \$17.00  
Eight roomed house \$18.00  
Nine roomed house \$19.00  
Ten roomed house \$20.00

From the figures given under the "Edmonton rates" the cost of water

\* The term "bathroom equipment" used in this article includes a bath, hot and cold taps, basin, one tap and closet. The entire cost of these being \$17.00 per year.

difficult find laundry tub, and any other convenience can be ascertained.

## COMPARATIVE RATES.

In regards to rates charged in certain other places the following figures will afford a glimpse for comparison.

In Brockville a 7 room house with six inmates costs \$13; \$2.50 for a horse; \$1.50 for a cow; \$4 for a closet & 3 for a bath tub and \$3 for a 30 foot lawn. Buses do not appear in the tariff and are apparently included in the net rate. The Brockville man, therefore, with a 7 room house, six inmates, bath, closet, lawn and cow pays \$23.50; with a horse also \$25.

In Edmonton he pays \$47.00. In Petrolia, Ont., pays for a 7 room house any number of people, \$6.75; bath, \$3; closet \$2; basin, \$1; lawn \$2; total, \$15.75. Cow \$2; horse \$2; Total with both these animals \$19.75. Calgary's price for same, \$20.50.

In Renfrew, Ont., a 7 room house with kitchen, bath, closet, lawn and lawn, costs \$11 per annum Horse \$2; cow \$1.

In Chatham, Ont., the charge for 7 rooms is \$8; bath, \$3.45; closet, \$3.45; basin, \$1.15; lawn, \$2.88; horse, \$3.45; cow \$1.15.

In Nelson, B. C., for a 7 room house with bath, closet, lawn, horse and cow, the charge is \$31.50, and they have a gravity system, too, no pumping required.

New Glasgow, N. S., a 7 room house, six people, pays \$6; bath, \$2.50; closet, \$2.50; wash basin, \$6; horse \$2; cow, \$50; total \$14.

## REPORT OF THE IRON PROPERTY

### OF THE EDMONTON COAL AND IRON COMPANY

#### LOCATION.

About one hundred miles northeast of Edmonton on the north side of the Saskatchewan river and midway between Victoria and Lac La Biche in the North-West Territories of Canada.

#### TRANSPORTATION.

Cool wagon roads from Edmonton and from Ft. Saskatchewan also south to Whitford and Battleford. The property is situated twenty miles north of the route of the Canadian Pacific Railway, near the route of the Grand Trunk Pacific, and within eight miles of the Saskatchewan river which is navigable.

#### CHARACTER OF COUNTRY.

Comparatively flat prairie relieved with low rolling hills, which are thickly wooded with small jack pine and fir. The pine runs from five to eight inches in diameter, and is suitable for fencing, building and fuel.

#### WATER SUPPLY.

There is a stream running through the property, which in the driest seasons yields an amply supply for all purposes. In addition there are two large lakes of fresh water on the property at least 300 acres.

#### DESCRIPTION OF PROPERTY.

This consists of six claims in townships 58 and 59, ranges 14 and 45, west of Fourth Meridian. The claims are named Wee Aman, Irondale, Limonite, Farm, Revelstoke, Rita and Eva, and all being fully licensed by the Dominion Government to Messrs. McAdam & Johnson, and surveyed by Messrs. Saunders & Driscoll, P.L.S., in June, 1904.

#### CHARACTER OF MINERAL DEPOSIT.

Oxide of iron, yielding on analysis, 45.2 per cent of metallic iron on the certificate of Mr. A. L. McKillop, of Nelson, dated October 26, 1904.

#### OCCURRENCE OF DEPOSIT.

A stream runs through the property from north to south, and in the flat portions widens out into a large bog in which the ore is deposited for a distance of two miles in length and from 200 to 600 feet in width; the depth of the deposit is from six to fourteen feet. On the Wee Aman claim it is from 500 to 800 feet in width, and is a genuine bog ore. Towards the north end of the property the ground rises and the deposit is covered by several feet of gravel, but at points where the drift is cut evidences of the continuance of the deposit underneath are found.

#### WORK DONE.

A number of pits have been sunk, some twenty feet deep, through the deposit, and in each its continuity over the area named has been demonstrated. In addition a trench half a mile long has been cut to drain the upper or north end of the property. On the Wee Aman claim a substantial cabin and barn have been built.

#### QUANTITY.

The extent of the development work will not admit of a close estimate of tonnage, but I can safely say from the assays actually made that a million tons would be well within the mark, and it is not improbable that this estimate will be greatly increased as work proceeds.

#### UTILITY OF DEPOSIT.

First, an excellent paint oxide for which a market could readily be found as the country opens up and railway facilities are provided.

Second, in combination with other ores for smelting and iron and steel manufacture, similar to that so successfully smelted at the Radnor Forges, Quebec, for many years.

#### COST OF DEVELOPMENT.

\$10,000 judiciously expended in sinking and boring would thoroughly prove the property. I believe that you would have in it a most valuable asset and one easily and quickly realizable, as it is more than likely from the character and occurrence of the deposit that the springs come from a stratified ore body below which should be disclosed by boring.

Having had thirty years' experience in locating and working various iron deposits, I have no hesitation in saying that this is a valuable property and one which will justify the expenditure recommended.

#### FUEL.

On the banks of the Saskatchewan river eight miles south there is an outcropping of good lignite coal running from 45 to 50 per cent in fixed carbon. This is easily accessible and available for fuel purposes.

Signed,

WM. BLAKEMORE, M.L.E.,

Greenwell Medallist, 1904.

The Canadian Northwest  
Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 1 and 25, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made on the district in which the land to be taken is situated, or, if the homesteader desires, he may, on applica-

## Notice

At a meeting of the Directors of  
**The Whitelaw Co.**  
Limited,

Held 5th January 1905, it was  
unanimously decided that on  
and after the First day of  
February, 1905, a strictly

## CASH BUSINESS

would be done.

We take this opportunity of  
thanking the Public heartily for  
their past patronage, and trust  
that, even under the new con-  
ditions, they will continue to  
favor us with a fair share of  
their custom.

We anticipate that being on  
a Cash Basis we shall be  
enabled to supply FIRST-  
CLASS GOODS at the lowest  
possible prices consistent with  
business methods.

**THE WHITELAW CO., Ltd.**  
Fraser Block.

Phone 31

tion to the Minister of the Interior,  
Ottawa, the Commissioner of Immi-  
gration, Winnipeg, or the local agent  
for the district in which the land is  
situated, receive authority for some  
one to make entry for him. A fee  
of \$10.00 is charged for a homestead  
entry.

**HOMESTEAD DUTIES.**—A settler  
who has been granted an entry for  
a homestead is required by the pro-  
visions of the Dominion Lands Act  
and the amendments thereto, to per-  
form the conditions connected there-  
with under one of the following  
plans:

(1) At least six months' residence  
upon and cultivation of the land in  
each year during the term of three  
years.

(2) If the father (or mother, if the  
father is deceased) of any person who  
is eligible to make a homestead entry  
under the provisions of this Act, re-  
sides upon a farm in the vicinity of  
the land entered for by such person  
as a homestead, the requirements of  
this Act as to residence prior to ob-  
taining patent, may be satisfied by  
such person residing with the father  
or mother.

(3) If a settler has obtained a pat-  
ent for his homestead, or a certifi-  
cate for the issue of such patent,  
counter-signed in the manner pre-  
scribed by this Act, and has obtained  
entry for a second homestead, the  
requirements of this Act as to resi-  
dence prior to obtaining patent may  
be satisfied by residence upon the  
first homestead, if the second homestead  
is in the vicinity of the first  
homestead.

(4) If the settler has his permanent  
residence upon farming land owned  
by him in the vicinity of his homestead,  
the requirements of this Act as to  
residence may be satisfied by  
residence upon said land.

The term "vicinity" used above is  
meant to indicate the same township  
or an adjoining or cornering town-  
ship.

A settler who avails himself of the  
provisions of Clauses 2, 3, or 4, must  
or substitute 20 head of stock, with  
buildings for their accommodation,  
cultivate 30 acres of his homestead,  
and have besides 80 acres substan-  
tiated.

The privilege of a second entry is  
restricted by law to those settlers  
only who completed the duties upon  
their first homesteads to entitle  
them to patent on or before the 2nd  
June, 1899.

Every homesteader who fails to  
comply with the requirements of the  
homestead law is liable to have his  
entry cancelled, and the land may be  
again thrown open for entry.

Application for patent should be  
made at the end of three years, be-  
fore the local agent, sub-agent, or  
Homestead Inspector. Before making  
application for patent the settler  
must give six months' notice in writ-  
ing to the Commissioner of Dominion  
Lands, at Ottawa, of his intention  
to do so.

Information.—Newly-arrived immi-  
grants will receive at the Immigration  
Office, in Winnipeg, or at any  
Dominion Lands Office, in Manitoba  
or the Northwest Territories, infor-  
mation as to the lands that are open  
for entry, and from the officers in  
charge, free of expense, advice and as-  
sistance in securing land to suit them.  
Full information respecting the land,  
timber, coal and mineral laws, as well  
as respecting Dominion Lands in the  
Railway Belt in British Columbia,  
may be obtained upon application to  
the Secretary of the Department of  
the Interior, Ottawa, the Commis-  
sioner of Immigration, Winnipeg,  
Manitoba, or to any of the Dominion  
Lands Agents in Manitoba or the  
Northwest Territories.

W. W. CORY,

Deputy Minister of the Interior.  
N.B.—In addition to Free Grant  
Lands to which the regulations above  
apply, there are thousands of acres of  
most desirable lands available for  
lease or purchase from railroad and  
other corporations and private firms  
in Western Canada.

## THE WHITE FAIR

## GARIEPY &amp; LESSARD'S

TO-DAY all Ladies' Muslin and Summer-weight Underwear,  
Corsets, White Blouses, Night-dresses, Children's Dresses,  
etc., will be cleared out. These goods will be placed  
on the counters and prices marked so that they can't help  
but go. Come and see that this is no fake.

**CORSETS**—The Corset stock is very large, and includes the  
D. & A. Crest Corset the "Just Right" Girdle, E.T. Corset,  
etc., etc.

**CHILDREN'S DRESSES**—In sizes from one year to fourteen  
years. Some are plain, others are trimmed with lace, etc.,  
etc. Space forbids description.

**LADIES' WEAR**—Night-dresses, White Underskirts, Drawers,  
Corset Covers, etc., etc., in all styles.

COME EARLY, so that you can have a better choice  
before the stock becomes upset.
